Aspiring Full Stack Developer with hands-on experience in building responsive and scalable web applications using **React.js, Node.js, MongoDB, and modern UI/UX principles.** Proficient in creating reusable components, integrating REST APIs, and managing backend operations. Strong understanding of **JavaScript frameworks**, version control, and Agile workflows. Passionate about writing clean, maintainable code and continually expanding technical expertise.

EXPERIENCE

Web Development Intern   *Apr 2024- jun 2024*

CodeKul – Corporate Software Development Training Institute

- Built small-scale, responsive web applications using React, HTML, CSS, and JavaScript.
- Integrated APIs, implemented UI enhancements, and resolved bugs using browser dev tools.
- Used Git for version control and worked in Agile team environments.
- Gained exposure to real-world development, debugging, and deployment practices.

SKILLS

- **Frontend :** React.js, React Hook Form, Material UI, Bootstrap, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+)
- **Backend :** Node.js, Express.js, MongoDB, PostgreSQL
- **Tools :** Git, GitHub, Microsoft Excel, Visual Studio Code
- **Programming :** Core Java (21)

PROJECTS

SellerList-E-commerce Platform

- Built a feature-rich e-commerce platform with 50+ product listings, user authentication, and seller management, enhancing usability and engagement. Implemented dynamic filtering and an optimized checkout, boosting user engagement by 25% and improving conversion rates
- **Technologies :** React js, Tailwind CSS, React-Hook-Form, Node.js, Express.js, MongoDB
- **Live Demo:** https//sellerlist-shop.netlify.app

TS-HealthCare – Medical Booking System

- Engineered a healthcare platform enabling patients to book medical services from home, integrating real-time appointment scheduling and secure authentication for a seamless experience.. Designed a responsive and scalable Ul, ensuring smooth navigation for patients and caregivers while optimizing performance across all devices
- **Technologies :** React.js, Tailwind CSS, React Router **Live Demo :** https://ts-healthcare.netlify.app

COURSES

Web Development   *Sep 2023 - Mar 2024*

- CodeKul - Corporate Software Development Training Institute

CERTIFICATION

- JavaScript – HackerRank
- React – HackerRank

EDUCATION

MCA (Web Technology)   *Jun 2024 - Present*

- Suryadatta Institute of Management and Mass Communication - SIMMC
- Specialization in Web Development

B.Com(Accounting)   *Jun 2020 - Apr 2023*

- Dhananjayrao Gadgil College Of Commerce

HOBBIES

Playing strategy games like Chess

- Enhances analytical thinking and problem-solving skills
